

# Rugged Fanless Computer

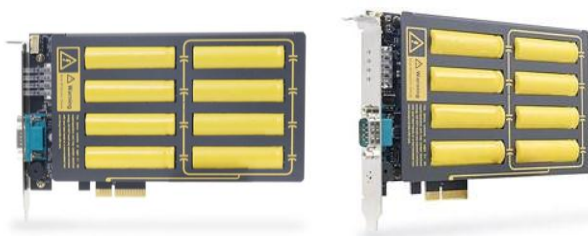

## Intel® 8th-Gen Coffee Lake Core™ i7/i5/i3 Fanless Embedded Computer

### About The Product

Introducing rugged fanless embedded computers, the new Nuvo-7000 series, powered by Intel® 8th-Gen Core™ i processors with up to 6-core/ 12-thread architecture that offer significant performance improvement over previous 6th and 7th-Gen platforms.

Nuvo-7000 series includes track-proven technologies for superior ruggedness and versatility, such as effective fanless design, patented expansion Cassette and proprietary MeziO™ interface. It also incorporates cutting-edge computer I/O like USB 3.1 Gen2 with up to 10 Gbps throughput and M.2 2280 M key socket for NVMe SSD or Intel® Optane™ memory for ultimate system performance. The plethora of on-board I/O ports (GbE, USB and COM) feature sophisticated protection circuits to endure stress from ESD and power surge. This makes Nuvo-7000 series by far the most rugged embedded computer we've ever created.

### Intelligent Ultracapacitor-based Power Backup Module

### Nuvo-7000E/P/DE series

#### Nuvo-7000E series

Intel® 8th-Gen Core™ fanless embedded computer with GbE ports, single-slot PCI Express Cassette and MeziO™

#### Nuvo-7000P series

Intel® 8th-Gen Core™ fanless embedded computer with GbE ports, single-slot PCI Cassette and MeziO™

#### Nuvo-7000DE series

Intel® 8th-Gen Core™ fanless embedded computer with GbE ports, dual-slot PCI Express Cassette and MeziO™
